

# Child Care in State Economies Report Series, Part 3: Child Care and Regional Economic Growth

## FACT SHEET

### Florida

Part 3 of the 2024 Child Care in State Economies Report series focuses on the economic impact of the child care industry across regions. The economic benefits of child care extend beyond individual households to the broader economy. Child care access enables more parents, especially mothers, to participate in the workforce and supports overall economic growth.

#### Child Care Businesses

There were 37,497 child care businesses in 2022.

- 4,534 child care centers
- 32,963 home-based child care businesses
- Between 2019 and 2022, the number of child care centers increased by 163
- Between 2019 and 2022, the number of home-based child care businesses increased by 868

#### Child Care Employment & Wages

Wages for individuals working in child care centers in Florida have increased by 29.9% since 2019.

- Median annual wages have increased from \$22,610 to \$29,360 in 2023, an increase of \$6,750.
- The median hourly wage increased from \$10.87 to \$14.11 in 2023.
- 2021 average annual revenue for home-based child care businesses was \$16,844 (net earnings of \$8,588 after operational costs)
- The average child care center had 13.4 employees in 2023.

#### Trends in the Use of Paid Child Care in Florida

- The overall share of children age 14 and younger averaged 17.7% in paid care from 2011 to 2022 and 17.4% from 2000 to 2010.
- Among children under age 5, use of paid child care averaged 24.5% between 2011 to 2022 and 25.1% from 2000 to 2010.
- Among school-age children, use of paid child care averaged 14.6% between 2011 to 2022 and 13.8% from 2000 to 2010.

#### Families Not Using Paid Care in the U.S.

- It is unclear whether families with children not using paid care prefer other arrangements, cannot afford child care amidst other household expenses, or the supply of child care in their community falls short of meeting the need.
