

Child Care in State Economies Report Series, Part 3: Child Care and Regional Economic Growth

FACT SHEET

Ohio

Part 3 of the 2024 Child Care in State Economies Report series focuses on the economic impact of the child care industry across regions. The economic benefits of child care extend beyond individual households to the broader economy. Child care access enables more parents, especially mothers, to participate in the workforce and supports overall economic growth.

Child Care Businesses

There were 19,763 child care businesses in 2022.

- 2,789 child care centers
- 16,974 home-based child care businesses
- Between 2019 and 2022, the number of child care centers increased by 136
- Between 2019 and 2022, the number of home-based child care businesses decreased by 633

Child Care Employment & Wages

Wages for individuals working in child care centers in Ohio have increased by 26.2% since 2019.

- Median annual wages have increased from \$22,160 to \$27,960 in 2023, an increase of \$5,800.
- The median hourly wage increased from \$10.65 to \$13.44 in 2023.
- 2021 average annual revenue for home-based child care businesses was \$17,665 (net earnings of \$8,877 after operational costs)
- The average child care center had 12.3 employees in 2023.

Trends in the Use of Paid Child Care in Ohio

- The overall share of children age 14 and younger averaged 20.3% in paid care from 2011 to 2022 and 19% from 2000 to 2010.
- Among children under age 5, use of paid child care averaged 29.2% between 2011 to 2022 and 25.4% from 2000 to 2010.
- Among school-age children, use of paid child care averaged 16.2% between 2011 to 2022 and 15.8% from 2000 to 2010.

Families Not Using Paid Care in the U.S.

- It is unclear whether families with children not using paid care prefer other arrangements, cannot afford child care amidst other household expenses, or the supply of child care in their community falls short of meeting the need.
